

### Details of Project

My name is Mahoganie Horn. My current residence is 11223 E 24<sup>th</sup> Street S Independence MO 64052. The details of the home daycare that that I am wishing to pursue is as follows:

- Caring for no more than 10 children Monday-Friday 6am-6pm.
- I am state licensed seeking to get city licensed.
- I will provide instruction for kids in their developmental learning areas.
- I will carry out lesson plans for the children throughout the week and provide a safe and loving learning environment.
- I will fulfill the need for parents in the community with providing exceptional childcare services.
- I will feed children breakfast, lunch and snack.

### Business Location

The business location inside the home will be the living room area and backroom area (media room). I have attached a drawn plan to show this.

### Parking

The parking available will be the side driveway of the home as shown in the picture with the home, so that parents can safely pull down, get children out and in the home.

### Customer Client Activity:

I will get children from parents as children come in.

Children will sanitize upon arrival and parents will sign children in from the front door.

I will care for the children until the parent returns.

### How business will operate:

I will provide care to children in my home for other parents who may be working or unavailable during the day. Daycare providers play games with children, supervise outside play, ensure children rest and provide meals and snacks. I will ensure that kids are kept safe and to follow state guidelines when caring for children. I will accommodate parents based on their childcare needs and the things outlined in this document. I will ensure that parents and I as the provider are on one accord when it comes to the children and that understanding is made when it is about the children.
