Dear Independence Planning and Zoning Committee,

Hello, my name is Lacie Greer. I'm from Sedalia, Missouri, which is where I started my tattoo career in 2008. After completing my 2 year apprenticeship, I moved to Kansas City to continue furthering my career. I have now been tattooing professionally for 14 years, the last 7 of which spent being an artist at Fountain City Tattoo, located in the Crossroads Arts District in KCMO.

After moving to Independence in 2019, I started thinking about the possibility of opening my very own shop closer to my home. I've been patiently keeping an eye out for just the right location and timing and I think I've finally found both! I feel that my experience within the tattoo industry has given me the necessary skills to confidently operate a successful tattoo studio. A few of those skills include:

- > Interacting with diverse spectrum of population
- > International travel to further education via participating in conventions
- > Handcrafting my own personal supplies such as machines, needles, clip-cord etc.
- > Solely responsible for handling my own marketing, social media, client interactions, scheduling, supply ordering etc for 14+ years

>Integral team member in the opening of 2 previous tattoo shops including Stay True Tattoo, Sedalia Missouri (10+ years in operation) and Fountain City Tattoo, Kansas City Missouri (7 years in operation)

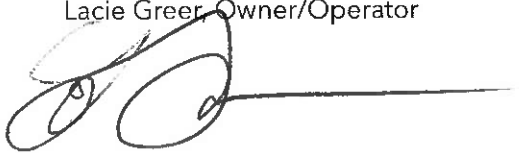

>Owning and operating my own tattoo supply company, CroMag Tattoo Supply

I know that there is a "per capita" limit on tattoo shops and space is limited. For these reasons, I would the greatly appreciate the opportunity to offer what I can to the artistic community in Independence. I would bring to the table a clean, welcoming and creative tattoo studio that Independence residents and fellow business owners would be proud to call a neighbor. My portfolio can be viewed online via Instagram: @lacie\_fct

Thank you for taking the time to consider my proposal.

Sincerely,

Lacie Greer, Owner/Operator
