

IPL Letter of Intent for RFP 21094, Substation A Generation Project

RE: Letter of Intent to proceed with evaluation and negotiations for the Independence Power & Light Substation A Generation Project, RFP 21094.

Located at Blue Valley Power Station, 21500 E Truman Rd., Independence, MO 64056

Proposed Project: PROENERGY Services, LLC (“PROENERGY”), provided a winning bid of \$69,350,000 to provide complete EPC (Engineer, Procure, Construct) services to deliver 2, LM6000 GE aeroderivative turbines (combined 84MW net capacity) with all supporting systems.

This LOI is not intended to be an agreement for services, procurement, or payment, but an agreement to declare PROENERGY the winning bidder and continue with negotiations solely with PROENERGY on RFP 21094. Further evaluation of the winning bid includes, but are not limited to, legal review of contracts, engineering review of proposed site conditions, equipment selection and layout, financing options, EPC timeline, and final pricing and are subject to final approvals from the City of Independence’s Public Utility Advisory Board and City Council.
