Re: Sole Manufacture, Sole Source

Major Leap

This letter certifies that BMS, LLC., is the sole manufacturer of Data911™ M Series Mobile Computer Systems, Verus Mobile Digital Video Systems and our Public Safety Enterprise Suite of software which including but is not limited to, CAD, RMS, AVL, and MDV software products. Data911's TX2 Tablet is designed and manufactured specifically for BMS, LLC., and it, along with Data911™ other products are not sold, licensed, provided or distributed by any business partners, resellers, distributors or third-party entities.

Based on your department's mandatory technical and operational specifications, BMS-Inc., is the only computer manufacturer that is fully compliant and capable of providing such propriety components which justifies a sole source/manufacture purchase.

Respectfully submitted,

Pete Lin
Director, Business Development – Data911
