Re: Substation E and Substation N: Primary Construction Recommendation of Award

Dear Jessica and Mitch,

Proposals for primary construction for the above referenced projects were opened by IPL on Tuesday, May 24, 2022.

We recommend that IPL accept the proposal for primary construction provided by Capital Electric Line Builders, Inc. Capital Electric was the low bid, most-responsive bid, and took no exceptions to the City's work scope and terms and conditions.

Please contact me if you have any comments or questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Olson'.

Mark T. Olson, PE
