RE: Rock Creek Pump Station Stairs Upgrade and Railing Repairs / Sugar Creek Pump Station Railing Repairs

Dear Mr. Sese,

MegaKC is pleased to submit our Request For Proposal for the Rock Creek Pump Station Stairs Upgrade and Railing Repairs / Sugar Creek Pump Station Railing Repairs. Our team's experience-based ability to bring creative solutions to this project will help reduce costs and deliver an expedited construction schedule. Our employee-owned company is known for tackling technically challenging projects, and we have an outstanding reputation for service to our clients. We have the relationships, knowledge, commitment to quality, and breadth of experience necessary to deliver this project effectively.

The MegaKC team will bring the following advantages to this project:

- We guarantee principal-level project involvement from start to finish. Our principals remain an integral part of the construction management team, working with all team members daily.
- Our team has a long history of exceptional performance on water and wastewater treatment projects.
- More than 65% of our work is self-performed by our employee-owned, skilled workforce. Scopes include demolition, earthwork, site utilities, concrete flatwork, structural concrete, carpentry, ironwork, mechanical piping, and water/wastewater equipment.

We look forward to continuing our relationship with the City of Independence and delivering this critical infrastructure for you. Please contact us with any questions.

Sincerely,

Brian Gordon
President
816.472.8722

COMPANY INFORMATION

\$30M+

projects annually

Merit

shop

80

employee-owners

100%

employee ownership

MegaKC is a 100% employee-owned general contractor that focuses on building and beautifying the Kansas City area. Since 1992, we have worked as a merit shop in both the public and private sectors. More than 80 employee-owners plan and build about \$30 million in project annually. On average, we self-perform 70 percent of our work. Our unique combination of employee ownership, long-range planning and investment in improvements has resulted in consistent, sustainable growth; ranking in the 2022 top 15 fastest-growing private-section employers by the Kansas City Business Journal.

From our project engineers and skilled tradesmen, to our leadership team and office staff, we are passionate about delivering quality construction projects that make our local communities a better place to live, work and play. All of our employee-owners are committed to building excellence and provide services in design-build, construction management, site development and general construction, with specialties including water, wastewater, aquatic facilities, transit, highways, parks, trails and more. We regularly rank among the top general contractors in the Kansas City area, delivering award-winning work on some of the region's most popular attractions.

In conjunction with developing our niche in design-build, MegaKC is proud to be a member and Kansas City Chapter sponsor of the Design-Build Institute of America — Mid-America Region.

MegaKC Mission Statement

MegaKC is a 100% employee-owned local construction company. Our passion is building, strengthening, beautifying infrastructure for the communities that we call home.

RFP:

AFFIDAVIT

STATE OF Missouri)
) SS.
COUNTY OF Clay)

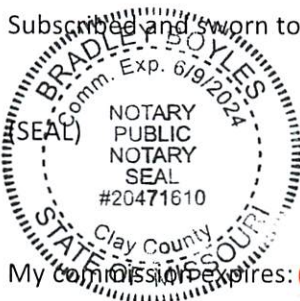

Brian Gordon of the City of North Kansas City
_____, County of Clay, State of Missouri

being duly sworn on her or his oath, deposes and says:

1. That I am the President (Title of Affiant) of
MegaKC Corporation (Name of Proposer) and
have been authorized by said proposer to make this affidavit on the proposer's behalf;
2. No Councilmember, City Manager, Director of Finance and Administration, City Procurement Manager, or any City employee is financially interested in what the proposer is offering to sell to the City pursuant to this RFP, nor is the proposer a City employee or board member whose proposal creates a conflict of interest. A conflict of interest would arise if any person named in this section is in a position to affect either the decision to solicit proposals or the selection of the successful proposer;
3. Proposer has not participated in collusion or committed any act in restraint of trade, directly or indirectly, which bears upon anyone's response or lack of response to this RFP; and
4. Proposer is responsible for submitting with his or her proposal a record of any discussion with a Councilmember, City Manager, Director of Finance and Administration, City Procurement Manager, or any other City employee regarding this RFP; and
5. The authorized signer of this document certifies that the organization and each of its principals are not suspended or debarred by the City of Independence, State of Missouri or Federal government.

ABC Excellence in Construction Awards – Letter of Recommendation
Piper Creek Pump Station

Dear Brian,

It is my privilege to have the opportunity to provide this recommendation to Mega KC for the ABC Excellence in Construction Award for the Piper Creek Pump Station Project. This project was fast paced from the beginning of conceptual design through completion of construction in order to be completed prior to the school district's opening of their new elementary school. The project culminated with the deadline of being on-line and operational in time for the beginning of the Fall 2020 school season as promised.

The Piper Creek Pump Station project was part of a two-part, single-phase expansion of the Unified Government's sanitary sewer facilities in the Piper Creek drainage basin, one being the PS and one being the offsite gravity pipes flowing to the PS and the forcemain to convey pumped flows from the PS. The projects were designed as a regional improvement to be able to service the entire drainage basin for ultimate build-out while still being able to appropriately handle today's flows and those of the next twenty-years as part of the initial build-out. Due to the nature of the expansion we hired one consultant to design the gravity sewer, force main and pump station upgrades needed for this regional improvement. The project was then bid and awarded as two separate contracts, with Mega KC being awarded the Pump Station Contract. Both contractors had a short time frame in which to deliver a quality project with the ultimate requirement of being operational in time for the Fall 2020 school year; when teachers were returning to their classrooms.

Because there were multiple subsurface rockstrata that both contractors had to excavate through in order to complete the projects, extraordinarily close coordination efforts were required in order to avoid delaying and/or damaging the other Contractor's work. Excavation depths as deep as 40' were required for the pipe installation and pump station foundations. Timing and coordination of these improvement was essential to ensure the schedule was met.

The Pump Station construction was larger and more complex than typical due to the fact that it was constructed to meet ultimate needs while still accommodating initial (low flow) conditions.

This meant that they had to build a facility significantly large than what is currently required. The wet well was designed for four pumps with a splitter wall that allows us to only utilize half of it with two pumps to accommodate our current needs as well as the predicted needs through Phase 2 of expansion over the next 20 years with ut needs for any upgrades other than a second force main. The site was also laid out in such a way to allow for current and future build-out of equipment, controls, power generation and odor control as well as the future construction of an effluent flow holding basin for future peak flow conditions.

Mega KC was easy to work with on the Piper Creek Pump Station Project. They met or exceeded all our expectations. We look forward to working with them on future projects.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kristofer Finger", with a stylized flourish extending from the end.

Kristofer Finger, P.E.
Project Engineer

OSHA's Form 300A (Rev. 01/2004)

Summary of Work-Related Injuries and Illnesses

All establishments covered by Part 1904 must complete this Summary page, even if no injuries or illnesses occurred during the year. Remember to review the Log to verify that the entries are complete

Using the Log, count the individual entries you made for each category. Then write the totals below, making sure you've added the entries from every page of the log. If you had no cases write "0."

Employees former employees, and their representatives have the right to review the OSHA Form 300 in its entirety. They also have limited access to the OSHA Form 301 or its equivalent. See 29 CFR 1904.35, in OSHA's Recordkeeping rule, for further details on the access provisions for these forms.

Number of Cases

Total number of deaths	Total number of cases with days away from work	Total number of cases with job transfer or restriction	Total number of other recordable cases

Mr. Richelieu Sese
City of Independence
111 E. Maple
Independence, MO 64050

RE: Contractor Prequalification

Dear Mr. Sese:

It is my understanding that you are considering the services of MegaKC Corporation. I am pleased to respond in this regard.

Thomas McGee Group has been associated with MegaKC Corporation since 1992. The bonds provided on behalf of this contractor are underwritten by the Amerisure Mutual Insurance Company. We typically do not share information regarding established lines of credit. I can confirm that the surety is prepared to consider individual contracts in excess of \$30,000,000 and a total program in excess of \$60,000,000. This letter is not to be construed as an agreement to provide surety credit for any particular project, but rather is offered as an indication of our past experience and confidence in this firm. Any request for bonds is a matter between MegaKC Corporation and the surety and will be underwritten based on its own merits. The surety assumes no liability to any party if for any reason they do not execute said bonds. Our experience with MegaKC Corporation has been outstanding. This contractor is professionally managed in all aspects of its operation.

I fully recommend MegaKC Corporation for your consideration. Please call with any questions that you may have in this regard or if I may be of further assistance.

Sincerely,

Thomas McGee Group

Re: Contractor Prequalification

To Whom It May Concern,

Lockton Companies is proud to serve as the insurance broker for MegaKC Corporation, located at 1491 Iron Street, North Kansas City, MO 64116. This letter is intended to confirm that MegaKC currently has the necessary insurance to meet the obligations as set out in the above referenced RFP. Please do not hesitate to contact me with any questions.

Sincerely,

Kelly Love, CPCU, ARM, CRIS
Assistant Vice President, Account Executive
Lockton Companies
816.960.9955
klove@lockton.com

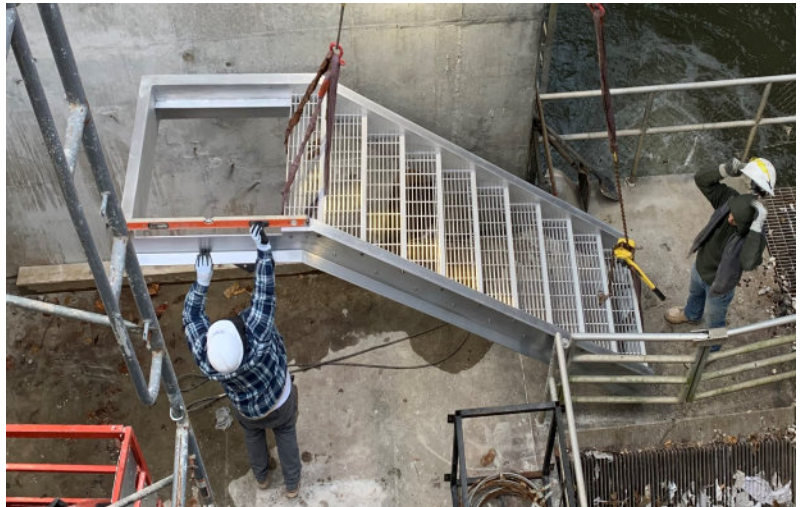

MegaKC is a general contractor committed to building excellence

Sugar Creek Pump
Station Staircase
Replacement -
December 2019

MegaKC's strength lies in our diverse and robust background of self-performed work, which includes grading and earthwork, site utilities, yard piping, concrete flatwork, structural concrete, miscellaneous metals, ironwork, carpentry, mechanical equipment, mechanical piping and plumbing. Our merit shop tradesmen are highly skilled in many different trades and very efficient in the work they perform. For example, on any given day, the same tradesman may be a carpenter in the morning and an equipment operator in the afternoon. Because MegaKC is 100% employee owned, all of our tradesmen and staff have a true pride of ownership in each project we complete. Due to our foundation of employee ownership, our tradesmen and staff are extremely loyal, and most have been working with us for several years performing safe, quality work they can be proud to call their own. In addition, there is a unique emphasis on "hustle" and competitiveness within our crews to meet or beat the cost estimate on every task they are given.

MegaKC is dedicated to providing a quality end product. To do so MegaKC would have Jimmy Peeler, provide Quality Control throughout the project stages by providing independent reviews of the project plans, including the final deliverables and checks for accuracy. Jimmy would also manage and oversee that MegaKC's standard QA/QC process is being followed throughout construction.

MegaKC was present for the pre-proposal conference held on September 19th, 2022 @ 10:00 am.

At MegaKC, safety is paramount.

MegaKC will make no compromise with respect to morality, ethics or safety. If a design or work practice is perceived to be unsafe, we do not proceed until the issue is resolved. Safety is our first priority in the eyes of our leadership and, as an extension, in the eyes of all of our employee-owners. Our emphasis is on performing work safely, every single time, without exception.

MegaKC is developing a true world-class safety culture – one where a near-miss, let alone an incident, must be remedied immediately. Safety is a core value upon which every decision, big or small, is based. The foundation of our culture is leadership's uncompromising commitment to achieving a zero-incident jobsite and our unwillingness to waiver from safety as a core value. The structure of a world-class safety culture comes from the belief that not only is every incident preventable, but also that **all employee-owners are responsible for their safety and the safety of those around them.**

Transforming a safety culture from one where safety is a priority to one where safety is the core value doesn't have to be difficult. It just takes commitment and instilling the importance of each team member performing their duties safely and watching out for their co-workers. It means building relationships among MegaKC employee-owners, subcontractors and clients so that everyone understands that safety isn't about individuals – it's about the people they work with and their families. It's an interdependent effort and can be achieved regardless of MegaKC's size.

Please share in our commitment to sending every employee home in the same, or better, condition in which they arrived, and exhibiting that commitment to all of MegaKC's employee-owners, subcontractors and clients. This philosophy has brought MegaKC's current Experience Modification Ration (EMR) to 1.03.

View our full safety guide at [MegaKC.com/safety-manual](https://www.megakc.com/safety-manual).

PUBLIC IMPROVEMENT CONTRACT

This Contract, made by and between the City of Independence, Missouri (hereinafter called City) and, **MegaKC Corporation**, (hereinafter called Contractor),

WITNESSETH:

WHEREAS the City has caused to be prepared, in accordance with law, specifications, plans and other contract documents for the work herein described, and has approval and adopted said documents, and has caused to be published in the manner for the time required by law, an advertisement for Invitation to Bid (ITB) and in connection with the construction of items in accordance with the terms of this contract; and,

WHEREAS the said Contractor, in response to such ITB, has submitted to the City in the manner and at the time specified, a sealed bid in accordance with the terms of the ITB; and,

WHEREAS the City, in the manner prescribed by law, has publicly opened, examined, and canvassed the bids submitted in response to the published invitation therefore, and as a result of such canvass has determined and declared the aforesaid Contractor to be the lowest or best bidder for the said work and has duly awarded to the said Contractor a contract therefore, for the sum or sums named in the Contractor's bid, a copy thereof being attached to and made a part of this contract agreement.

NOW, THEREFORE, in consideration of the compensation to be paid to the Contractor and of the mutual agreements herein contained, the Parties to these presents have agreed and hereby agree, the City for itself and its successors, and the Contractor for itself and its executors and administrators, as follows:

ARTICLE 1

That the Contractor shall:

- a. Furnish all tools, equipment, supplies, insurance, superintendence, transportation, and other construction accessories, services, and facilities;
- b. Furnish all materials, supplies, and equipment specified and required to be incorporated in and form a permanent part of the completed work;
- c. Provide and perform all necessary labor and, in a good, substantial, workmanlike manner in accordance with the general provisions and technical specifications of this contract, which are attached hereto and made a part hereof, and in conformity with the terms and conditions, contract plans and specifications designated and identified therein;
- d. Make payment of all wages in conformance with the official schedule of wage rates as determined by the Industrial Commission of Missouri for the Department of Labor and Industrial Relations, and in compliance with the Prevailing Wage Law of Missouri, all as set forth in the general provisions which are attached hereto and made a part hereof by reference, perform and observe all of the terms, agreements, requirements and conditions contained in the general provisions and technical specifications which are attached hereto and made a part hereof by reference;

- e. Execute, construct and complete all work included in and covered by the City's official award of this contract to the said Contractor, such award being based on the acceptance by the City of the Contractor's bid, (or part thereof if City so elects).

ARTICLE 2

That the City shall pay to the Contractor for the performance of the work embraced in this contract, and the Contractor will accept as full compensation therefore, a sum (subject to change orders approved by the City) not to exceed

\$191,950.00 for all work covered by and included in the contract award and designated in the foregoing Article 1; payment thereof to be made in the manner provided in the general provisions hereto attached.

ARTICLE 3

That the Contractor shall work on, or within ten (10) days following the date of a written order from the City to the Contractor to proceed with the work to be performed under provisions of this contract, or on a subsequent date designated and authorized by the City in said order, and that the Contractor shall complete said work within

120 **consecutive calendar days** from and after the date of, or subsequent date authorized in, the said order by the City to proceed.

ARTICLE 4

This Contract shall be governed by the laws of the State of Missouri. The City and the Contractor agree that the performance of this Contract will be deemed to have occurred in the State of Missouri and that Contractor's performance under this Contract will be deemed the transaction of business in Missouri. Jurisdiction and venue for any claim or cause of action arising under this Contract shall be exclusively in the Sixteenth Judicial Circuit of Missouri and the Contractor submits to personal jurisdiction of and waives any personal jurisdiction or inconvenient forum objection to, that court.

IN WITNESS WHEREOF, the parties of hereto have executed this contract as of the day and year above written.
