Describe the proposed goods or services.

This is a direct replacement for our switchgears that are already in service on our system. We need that exact replacement in order to fit the existing site.

What are the specific necessary features that this supplier provides that are not available from other suppliers?

They match exactly what we have now.

Describe your efforts to identify other potential sources and how similar goods or services are unable to meet the required objective.

This was done on the original purchase of the multiple switchgear that are now in the system and have been for years.

*Testing and Evaluations performed to support standardization.

See above comments

*How will standardization support the department/agency?
