Cindy McClain, *Chair*  
Bill Preston, *Vice-Chair*  
Virginia Ferguson  
Edward Nesbitt  
Laurie Dean Wiley  
Heather Wiley

Zachary Walker, City Manager

## **Introduction**

The Capital Improvements Program (CIP) is a major financial, public infrastructure and equipment planning tool for municipalities. The CIP is a long-range plan that identifies capital projects and equipment, provides a planning schedule, and identifies options to fund the projects and equipment. The development of a CIP provides information regarding planned public improvements and equipment with anticipated funding. The CIP provides a link between the various master plans, the City's comprehensive plan, and the annual budget.

The Planning Commission's role in the CIP process is to provide a recommendation of public improvements to the City Manager by April 1<sup>st</sup> of each fiscal year that further implements the vision, goals, and strategies of the Independence For All Strategic Plan and Imagine Independence 2040 Comprehensive Plan.

The CIP sets forth proposed projects for constructing, maintaining, upgrading, and replacing the City's physical infrastructure and equipment necessary for continued operations and providing City services during the next six fiscal years beginning in July 2023 through June 2029.

Projects listed in the CIP report are not necessarily listed in priority order and are not to be construed as a promise to any person or group that it will be completed within a specific time frame. A CIP is not a static document, but rather, a fluid document that can be changed as the infrastructure requirements change, development occurs, and funding opportunities become available.

## **Capital Improvement Project Defined**

In developing a CIP, it is important to distinguish between operating and capital expenses. Generally, these items are defined based on their cost and frequency of occurrence. Operating items are those that represent ongoing operating expenses, such as maintenance, outside of one-time capital expenditures. Presented below are the definitions developed specifically for the City of Independence for capital expenses that should be included in the CIP budget:

- Any construction of a new public facility (e.g., a public building, a public street, water and sewer lines, parks, play field, or the like) or an addition to, or extension of, such a facility.
- A nonrecurring rehabilitation or replacement of existing public facilities, or major repair of all or a part of a public facility, provided that the cost is \$100,000 or more.
- Purchase of major equipment of \$100,000 or more (either one item or a number of items with a cumulative one-time purchase of \$100,000 or over) and a useful life of 5 years or more.
- Planning, feasibility, engineering, or design studies and services immediately related to an individual capital improvement project.

## Summary

The CIP contains 143 identified projects with a total projected cost of \$262 million. The category with the largest number of projects in the next two years is the Municipal Services Department with 60 projects. For all projects, estimated FY 2023-24 expenditures total approximately \$93.3 million and FY 2024-25 expenditures total approximately \$41 million. The largest projects in FY 2023-24 include the Pavement Preventative Maintenance Operations program at \$4,600,000 and the Truman Connected Phase 1 project at \$4,000,000.

Funding for CIP projects are derived from various sources including General Fund, Federal and State grants (ARPA, CDBG, CMAQ, FLAP, RAISE, STP and TAP), other debt, Power and Light Funds, Sales Tax (Park and Recreation, Public Safety, Stormwater, and Street) Funds, Sanitary Sewer Funds, Transient Guest Tax, and Water Fund. The largest funding sources in FY 2023-24 are the various sales taxes followed by this year's combined Grant funding.

### Fiscal Year 2023-24 Highlights

- Fire Department projects include the replacement of station 8, currently at Powell and Truman Road, and replaced with a new station on 78 Hwy combined with the existing training facility.
- The Municipal Services Department, includes the annual Pavement Preventative Maintenance Operations project that will utilize treatment options to optimize the budget including crack sealing, surface sealing and traditional mill and overlay. The 24 Highway Complete Streets project that will improve roadway safety from River Blvd to 291 Hwy and provide a continuous center turn lane for safety, curb and gutter improvements, and a ten-foot-wide shared pedestrian and bike path on the south and a five-foot-wide sidewalk on the north. The Little Blue Parkway & I-70 Interchange project which will include improvements to the ramps, turn lanes, and traffic signals to improve access for businesses and freight traffic from the Northpoint Developments Eastgate Commerce Center Development.
- Storm projects include the Rock Creek Watershed Pipe Repair & Replacement project which will repair and/or replace existing failing corrugated metal pipe throughout the Rock Creek watershed.

- Sewer projects include the Clarifier Rehabilitation project which will rehabilitate the primary and secondary clarifier rake arms and include replacements of the weirs. The Grit Removal Improvements – RCPS project will improve pre-treatment operations of the Rock Creek Pump Station in addition to the screening improvements made to the station. This pump station manages approximately 60 percent of the waste stream for the Rock Creek Treatment Plant.
- Parks and Recreation projects includes the Bingham Waggoner Upkeep for interior and exterior repairs to the Estate along with the Vaile Mansion Upkeep project for interior and exterior repairs. The funds for these projects will be part of the 50% matching funds needed if APRA Tourism Grants are received. Other highlighted projects include the Santa Fe Trail Park Replacement Playground project and a new gym floor for the Palmer Senior Center.
- Police Department projects include a replacement to the existing outdated Mobile Command Post.
- Independence Power and Light projects include the Blue Valley Chimney Demolition project which will remove the number 3 chimney. The Construction of a New Substation S project to serve the large Northpoint development project between RD Mize Rd on the south and Hwy 78 on the north, east of Little Blue Parkway. The Primary Operations Center Functional & Code Upgrades for the system operations work area, and the Transmission Pole Replacement Program project which includes the replacement of 39 structures over the next three years as a result of the inspections of all wood transmission poles completed in the summer of 2021.
- Water projects include the Main Replacement Program which will be an ongoing project to fund necessary modifications to the City’s water distribution system resulting from improvements made in conjunction with other new City infrastructure such as street improvements and main replacements. The Courtney Bend Plant Emergency Generator project will increase the reliability of the City’s water source in the event of an electrical power outage on the Plant’s power sources. The generator may also be used to reduce the demand of energy provided to the Plant through the electrical grid and helping lower energy cost. The Treatment Plant Discharge project includes engineering design and facilities to treat residuals from the Courtney Bend Water Treatment Plant to comply with future regulations.

This year’s CIP has determined using a Priority Based Budgeting and scoring method which is explained in the following pages. Projects have been scored from attributes determined by this new method. Following that, a Funding Source Summary report has been provided along with a Department project list which provides an overview of each Departments yearly funding expenditures. Lastly, a detailed overview of each project follows. These overviews provide information for projects starting in FY 2023-24 out to FY 2028-29, including project name, sponsoring department, total cost, attribute scoring and amount and years of expenditures.

## Priority Based Budgeting

Priority-based budgeting is a Government Finance Officers Association and International City/County Management Association best practice and has been utilized in cities across the country, including Kansas City, Lawrence, KS and Shawnee, KS.

In contrast to traditional budgeting models, priority-based budgets align resources and funding with community priorities and outcomes. This shifts the focus to accountability for a program's results, creating transparency and a better understanding of the true cost of each program. The following pages will provide an overview of how the City of Independence has shifted to a different model this year in evaluating capital projects driven by alignment to the strategic plan.

## Overview of the City of Independence Strategic Plan Goals and Objectives

### Customer Focused – Improve customer service and communication

- Improve customer experience and service
- Communicate more effectively internally and externally

### Financially Sustainable – Ensure city finances are stable and sustainable

- Control long-term costs
- Increase efficient use of financial and human resources
- Improve long-range financial planning and decision-making

### Quality – Achieve livability, choice, access, health and safety through a quality-built environment

- Reduce blight
- Improve visual appearance
- Improve public infrastructure and facilities
- Reduce crime and disorder
- Increase perception of safety
- Enhance public health
- Stabilize and revitalize neighborhoods

### Economy – Increase economic prosperity of the community

- Attract and retain quality employers
- Grow business and industry

# Key Community Priorities for Priority Based Budgeting

## Scoring Process

The scoring process happens in four stages:

1. Define Basic Program Attributes and Outcomes
2. Department Scoring
3. Peer Review
4. Final Review

### ***Basic Program Attributes and Outcomes:***

Define a list of comprehensive, long-lasting attributes and outcomes that reflect the organizations stated objectives and priorities.

Used to assess a project impact with the community or organization.

Basic and Outcome attributes are described below. Outcome attributes are divided into two criteria, either Governance, including *good governance* or Community, including *livable community, robust resilient economy, engaged community, sustainable infrastructure, and safe and healthy community*.

### Basic Program Attributes

*Mandated to Provide Program*

*Cost Recovery of Program*

*Portion of the Community Served*

## Outcomes

### Governance

#### *Good Governance*

- Acts in an honest, accessible, open, and transparent way, and is engaging and responsive to its people.
- High Performing Governance attracts, motivates, develops and retains a high- quality, engaged and productive workforce.
- Engages and collaborates with other government entities on regional issues, as well as with its community stakeholders to build a better tomorrow for everyone.
- Protects, manages, optimizes and invests in its financial, human, physical and technology resources
- Provides responsive and accessible leadership and facilitates timely and effective two-way communication and input with all stakeholders.
- Uses best practices in financial management, policies, and practices, while providing valuable services for the resources received

### Community

#### *Livable Community*

- Develops, preserves, and revitalizes residential neighborhoods that are safe, attractive, accessible to public transportation and provide diverse, affordable housing options
- Seeks to preserve, protect and conserve natural resources Applies consistent land use regulations to ensure orderly and strategically planned growth, limit sprawl and offer appropriate regulation with consistent community input.
- Creates and preserves access to open space, green space, shorelines, parks and recreational opportunities, including collaboration with other organizations and community partners.
- Offers recreation facilities and amenities that are equally maintained and accessible to all people, regardless of where they live or their abilities
- Plans, designs, constructs, & maintains transportation infrastructure (including roads, bridges, sidewalks, traffic signals, signage, street lighting, and drainage).

#### *Robust, Resilient Economy*

- Encourages and maintains a diverse balance of businesses that support the resident population to maintain their quality of life. Provides a safe, accessible, reliable, connected, and well-planned place to live and work.
- Attract and retain visitors to the city's historic sites, amenities, and events.
- Ensure that public transportation connects the Independence workforce to quality jobs.
- Stimulates economic growth through well-planned, sustainable development and revitalization of the community.
- Improve community partnerships to better support and encourage training and career development opportunities for the local workforce.

### *Engaged Community*

- Provides connected transportation and communications networks to ensure accessibility throughout the community.
- Keeps citizens connected and informed, providing a reliable communications network and leveraging opportunities to provide information to citizens through community activities.
- Collaborates with regional governments and local non-profit social service agencies.
- Offers recreation facilities and amenities that are equally maintained and accessible to all people, regardless of where they live or their abilities
- Promotes diverse and inclusive events and venues for cultural enrichment and celebration.
- Create a welcoming community through partnerships, resilient neighborhoods, & civic engagement

### *Sustainable, Innovative Infrastructure*

- Provides space and maintenance for city buildings and supports long- term strategy for needed improvements
- Provides access to safe drinking water, and sanitary sewer services. Provides storm drainage and infrastructure for effective storm water management, and education on reporting/management of misuse.
- Designs, constructs and proactively maintains a reliable utility infrastructure.
- Partners with others in the community to regionally plan, cooperatively prepare and collaboratively invest in properly regulated, sustainable development.
- Plans for the long-term maintenance, repair, and replacement of roads.

### *Safe & Healthy Community*

- Ensures proactive code enforcement to provide for a safe, well- maintained and healthy environment, ensuring access to clean air and water.
- Enforces laws fairly, justly, and equitably.
- Provides crime prevention and personal safety from violent crime for all.
- Prepares for and responds to emergencies, including life-threatening medical emergencies, fires, natural disasters, and epidemics.
- Supports feeling safe throughout the city - in your home, in your neighborhood, at your place of employment, in schools, downtown, and in commercial areas.
- Provides for the basic physical needs and well-being of its citizens, providing support services to at-risk children and families, the homeless, and those in need of mental health services.

### ***Department Scoring:***

- Utilizes the expertise of departments to assess how a project impacts the applicable Community or Governance results and all Basic Program Attributes and Outcomes
- Assessment Scale:
  - [Project has] Extreme alignment with achieving the Result
  - [Project has] Strong alignment with achieving the Result
  - [Project has] Some alignment with achieving the Result
  - [Project has] Minor alignment with achieving the Result
  - [Project has] No alignment with achieving the Result

## Basic Program Attributes

### *PORTION of the COMMUNITY SERVED*

- Less than 10% of the population is benefitting
- Less than 50% of the population is benefitting
- Majority of the population is benefitting

### *COST RECOVERY of PROGRAM*

- No
- Yes

### MANDATED to PROVIDE PROGRAM

- No Mandate
- Self Mandate or Ordinance
- State or Federal Mandate

### ***Peer Review:***

- Creates and utilizes the cross-departmental teams to become experts for one Result or Attribute
- Assesses the given Department Score for every project for the one Result or Attribute for accuracy and shared understanding of the project using the same scale as Department Scoring

### ***Final Review:***

- Fosters conversation about Projects with different scores between the Department and Peer Review scoring processes to decide the final, overall score
- Can engage leadership teams in the organization in addition to Peer Review and Departments

City of Independence, Missouri  
**Capital Improvements Program**  
 23/24 thru 28/29

## Funding Source Summary

Funding Source	2023-24	2024-25	2025-26	2026-27	2027-28	2028-29	Grand Total
General Fund	1,510,000	635,000	880,000	825,000	325,000	325,000	4,500,000

## Pavement Preventative Maintenance Operations

## Project Data Summary

**Cost Center:** Municipal Services

**Total Cost: \$27,600,000**

**FTE: 0**

**Personnel: \$0**

**NonPersonnel: \$27,600,000**

**Quartile:** More Aligned

**Final Score (out of 100):** 64.29

**Description:** Streets included in the City's annual resurfacing projects are carefully evaluated and inspected. This year the City will be utilizing multiple treatment options in order to optimize the budget. Crack sealing will be used to protect pavement integrity. Crack sealing is the placement of a rubberized sealant in pavement cracks to provide a protective coating and seal out water. Surface sealing extends the life of existing pavements by filling surface cracks and voids, sealing against moisture, protecting the surface from oxidation and raveling, and adding texture and uniform appearance to the street. The traditional overlay, mill and fill, will be used for the streets that need pavement structure re-established. This project will also bring ADA ramps into compliance and fix curb along the selected routes. Pavement repairs will also be accomplished under this program.

## 24 HWY Complete Streets

## Project Data Summary

**Cost Center:** Municipal Services

**Total Cost: \$1,400,000**

**FTE: 0**

**Personnel: \$0**

**NonPersonnel: \$1,400,000**

**Quartile:** More Aligned

**Final Score (out of 100):** 67.86

**Description:** This project will improve 24 Highway from River Blvd. to 291 Highway. A continuous center turn lane will be provided to improve safety. There will be curb and gutter installed on both sides of the street. A 10-foot-wide shared pedestrian/bicycle path will be built along the south side of the highway. A 10-foot-wide sidewalk will be built along the north side. There will be storm drainage and traffic signal improvements. The project will improve safety, better serve more transportation users, and provide connections to transit routes, sidewalks and trails.

## 23rd Street Complete Streets

### Project Data Summary

**Cost Center:** Municipal Services

**Total Cost:** \$1,450,086

**FTE:** 0

**Personnel:** \$0

**NonPersonnel:** \$1,450,086

**Quartile:** More Aligned

**Final Score (out of 100):** 64.29

**Description:** This project will construct new sidewalks, pedestrian signal upgrades, sidewalk ramps and street trees on both sides of 23rd Street (M-78) between Lee's Summit Road and Missouri Highway 291. Future phases will extend pedestrian facilities east to Speck Road to serve the Independence Middle School complex and other activity centers. The goal is to better serve all transportation modes and provide more interconnectivity between pedestrian and bicyclists to bus routes along the principal arterial. Currently the corridor is designed to serve motorized vehicles; bicyclists have marked facilities, while pedestrians have an incomplete sidewalk on the north side of 23rd Street. No sidewalks exist on the south side. The system does not adequately accommodate mobility aid users, where several transit stops exist along the route but no sidewalk continuity. This project will create interconnectivity for all transportation modes and make it ADA compliant and transit-user friendly.

## Lime Silo Recoating Project Data Summary

**Cost Center:** Water

**Total Cost:** \$0

**FTE:** 0

**Personnel:** \$0

**NonPersonnel:** \$0

**Quartile:** Less Aligned

**Final Score (out of 100):** 60.71

**Description:** Re-coat the exterior of the Lime Storage Silo at the Courtney Bend Plant.

## Treated Water Storage Reservoir

### Project Data Summary

**Cost Center:** Water

**Total Cost:** \$5,000,000

**FTE:** 0

**Personnel:** \$0

**NonPersonnel:** \$5,000,000

**Quartile:** Most Aligned

**Final Score (out of 100):** 76.79

**Description:** Design, construct and install a 2,500,000 gallon treated water storage reservoir at the Courtney Bend Water Plant. This reservoir will provide additional storage, efficiency and reliability to the operations of the Courtney Bend Water Plant.

## Basin Drive Improvements

## Project Data Summary

**Cost Center:** Water

**Total Cost: \$250,000**

**FTE: 0**

**Personnel: \$0**

**NonPersonnel: \$250,000**

**Quartile:** Most Aligned

**Final Score (out of 100):** 76.79

**Description:** The Courtney Bend Plant currently has 8 contact basins and 6 settling basins which provide softening, disinfectant contact time, and settling for the treatment process. The process equipment utilize mechanical drive units which need to be inspected and repaired or replaced to avoid catastrophic failures. This project will determine and provide the necessary improvements for these units.

## 420 N. Forest - Site and Facilities Improvements

### Project Data Summary

**Cost Center:** Water

**Total Cost:** \$0

**FTE:** 0

**Personnel:** \$0

**NonPersonnel:** \$0

**Quartile:** More Aligned

**Final Score (out of 100):** 71.43

**Description:** This project will involve the development and implementation of a master plan for the Water Department construction and maintenance facilities located at 420 N. Forest Ave. These facilities have not had any major improvements or updates since the 1980's. The needed site improvements include the addition of fleet servicing facilities, site security features, personnel, and office space improvements along with an expanded inventory space.

## Lime Slaker No. 6

### Project Data Summary

**Cost Center:** Water

**Total Cost:** \$500,000

**FTE:** 0

**Personnel:** \$0

**NonPersonnel:** \$500,000

**Quartile:** Most Aligned

**Final Score (out of 100):** 76.79

**Description:** Lime slakers provide slaked lime to our basins for the purpose of softening the water. This project will replace the existing Lime Slaker No. 5 at the Courtney Bend Water Plant. This Lime Slaker has exceeded its useful life and is needing to be replaced.

## Main Replacement: U.S. Hwy 24 (Northern - R.R. Tracks)

### Project Data Summary

**Cost Center:** Water

**Total Cost:** \$250,000

**FTE:** 0

**Personnel:** \$0

**NonPersonnel:** \$250,000

**Quartile:** Most Aligned

**Final Score (out of 100):** 76.79

**Description:** This project will replace approximately 750 feet of 6 in. and 400 feet of 8 in. water main which was installed in 1950 and has experienced an excessive amount of breaks. These breaks have impacted traffic along Hwy 24 and resulted in costly repairs within the State Right of Way. The new main will be installed outside of the pavement, will reduce the number of breaks and provide a more reliable source of water for the customers in the surrounding area. This project addresses the improvement of existing infrastructure.
