

Centerpoint Medical Center

Centerpoint Medical Center would like to express our sincere gratitude for the invaluable partnership we have shared with the city of Independence. The collaborative efforts between our hospital and the city leadership have made a significant impact on the well-being and healthcare needs of the community we serve. Your unwavering support has allowed us to deliver exceptional medical services, enhance access to care, and improve the overall health outcomes of our residents. We are truly thankful for the opportunity to work together and look forward to a continued growth for a healthier future.

Re: Emergency Care Hospital – Independence

Dear Ms. Dorge,

I would like to express my support for Centerpoint Medical Center’s Certificate of Need application to build an emergency care hospital (ECH) in Independence, Missouri.

The proposed ECH will create a new access point closer to patients who need emergency care and alleviate overcrowding in the Centerpoint emergency department currently serving that area. Access to faster and more efficient emergency medical care at an ECH can help reduce wait times, improve patient satisfaction and enhance patient outcomes. This is especially important as the population ages and requires more care, putting even more pressure on crowded emergency departments.

Moreover, this facility represents a multi-million dollar investment in our local economy. And that doesn’t account for the additional economic benefit to local businesses, such as pharmacies, grocery stores, gas stations, etc. that have experienced a positive impact from patients and their families utilizing their services prior to, or following an emergency department visit. HCA Healthcare and HCA Midwest Health – Centerpoint’s parent companies – have received this positive feedback from local markets following the opening of new emergency care hospitals.

HCA Midwest Health has a long-standing reputation for excellence in healthcare, and I have no doubt that this new facility will be a valuable addition to our community.

Sincerely,
